

Universidade do Minho

mestrado em  
SERVIÇOS de INFORMAÇÃO

# Architech

## Objectives

Architectural service idealizing and structuring

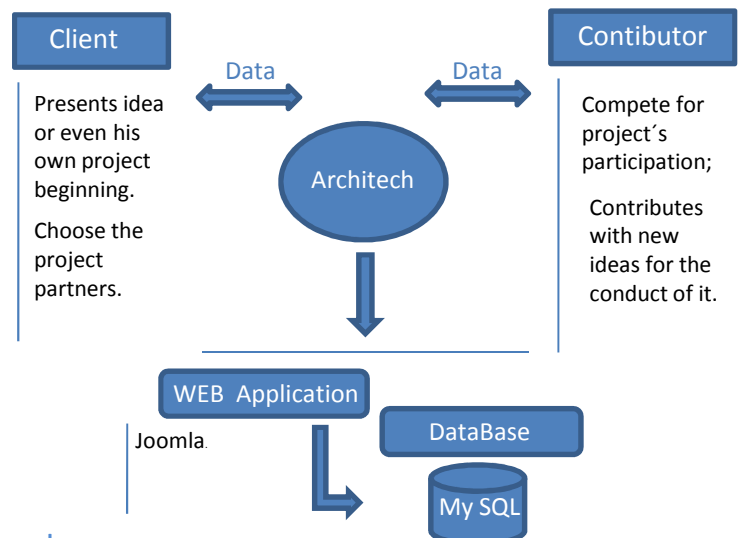

The service should be capable of:

- Making the connection between client and developer;
- Inform and actualize the clients about the construction matters;
- Be the fastest and better way for the clients to arrange a construction project partner;
- Launch new talents (like designers, architects, gardeners, builders...) in to the construction market.

Your Dream Your Build
